SELECTMEN'S REPORT—1967

It is with considerable pleasure that we are given this opportunity to report to the citizens of Carroll the activities and developments in the past year as well as suggestions for the future.

First, we believe we should welcome our new arrivals in town: Mr. and Mrs. L'Hommedieu, who bought the Aimee home; Mr. and Mrs. Doyle, who bought the Burrough's home; Mr. and Mrs. Dingman, who bought the Brill home; Mr. and Mrs. Stygles, who occupy the Mailloux house; Mr. and Mrs. Noll, who occupy the Dacey house and Mr. and Mrs. Chaufy, who bought the Eisner home.

If the Town of Carroll is to grow and prosper with the adjoining communities (and we are surrounded by aggressive and civic-minded towns) we must always be conscious of our image and civic pride. This is no small accomplishment and will cost money. It cannot be brought about in one year. By doing a few things each year, over a period of years, and maintaining these developments as we go along, we can improve on everything we have. The Town must not "stand still." All we have is the tourist trade, and if this is lost or diminished the Town is finished. Everyone benefits from the tourists' dollars.

FIRE DEPARTMENT

Mr. Harold Garneau, our Fire Chief, has had a representative of the State Fire Marshall's office in Town and has conducted numerous drills and instruction periods under his advice and guidance with all volunteer firemen present. This will improve the fire protection in Town. The entire fire department personnel should be commended for doing this on their own time.

ROADS

The Town has too many unused roads. These we must abandon. (Refer to Warrant). We must vote to abandon the roads mentioned because this year we had unanticipated trouble and expense repairing them. We were caught with all roads in need of repairs at the same time and we had to make them, regardless of our wishes.

RECREATION AREA

Our Recreation Area, with its lake, is a worthwhile endeavor and should be improved a little each year. This development is something everyone can enjoy and should use. So let's have some suggestions and ideas on how to go about this for the benefit of all. It is bad business and shows a lack of interest on everyone's part, putting money into these projects and then deserting them. Nothing maintains itself.

TOWN PROPERTY

We would like to improve the Town Hall each year until it no longer resembles a barn. This entails painting inside, linoleum on the floors, adequate toilet facilities, better fire protection—the last two items being required by law.

The Town Dump comes up for considerable discussion and expense. Contrary to some people's idea, the Town operates the dump through the Selectmen. Therefore, we would like to ask everyone using it to place rubbish in the pit provided for that purpose. Your cooperation will be appreciated. **NO OLD CARS WILL BE LEFT AT THE DUMP UNDER ANY CIRCUMSTANCES. Anyone who leaves one will be prosecuted by law.**

We expect a new road in the near future and then the sidewalks can be improved. As they are now, they are a disgrace and a hazard to the Town.

The Twin Mountain Municipal Airport is a distinct asset to the Town. Ways and means should be studied to develop and improve this project. The Town cannot ignore the investment we have in it. We feel the Town should improve the Airport gradually each year. A government survey reveals that the small plane has increased in popularity 1100% since World War II and increases 63% each year, so we have a good start toward accommodating these planes. Let's keep this facility.

The School Budget is terrific, \$85,000 plus, and no doubt it will increase for a number of years, or until the buildings and relative equipment and paraphernalia have been procured. Then it should level off to a more practicable assessment. No one should complain, as this is what the people wanted and voted for. The Selectmen will continue to explore every possibility to arrive at a more evenly apportioned per capita cost compared with other towns in our School District.

JUNKYARDS AND JUNK AUTOS

Legislation was enacted in 1965, requiring anyone with two or more junk autos to comply with motor vehicle junk yard regulations which included extensive setbacks from the road, fencing and a \$25 annual permit fee. Some towns have done a marvelous job cleaning up these eyesores, others have done little.

The Selectmen hope the people concerned will comply with this law on their own initiative and not force the Town to act.

DILAPIDATED—HAZARDOUS BUILDINGS

The 1967 legislature passed an act sponsored by the New Hampshire Municipal Association, enabling city councils and boards of Selectmen to seek court orders requiring either the repair or demolition of dilapidated, hazardous buildings of which the 1960 U.S. Census revealed some 10,000 such structures in the State. The law also covers hazardous excavations—no court order needed. Enforcement of this law will be strengthened by statewide and local support of the elected boards.

The Selectmen ask everyone's cooperation in their effort to clean up the Town.

It is time the Town gave serious thought to the purchasing of a truck and the hiring of a full-time Town employee. There's enough work to be done to justify this. This proposal is open to suggestions and debate any time.

The new carpet in the dining room is a gift from Mr. and Mrs. Charles W. Farrington. We thank them for their generosity.

In conclusion, we are sincerely grateful for the advice and suggestions from so many civic-minded citizens and we solicit your help in the coming year. Looking forward to seeing you at Town Meeting!

State of New Hampshire Department of Health and Welfare

December 27, 1967

To the Citizens of the Town of Carroll:

In 1967, 79 visits were made in the community. These visits are classified as below:

Administration and		Health Supervision	61
Promotion	1	Mental Retardation	2
Antepartum	4	Postpartum	1
Cardiac	3	School	3
Cardiovascular Accident	3		
Convulsive Disorder	1		

Preschool and school children attended Immunization Clinics held in Whitefield throughout the year. The Heaf testing program was carried out in the school, and all personnel participated.

Health services become a matter for community concern when an individual cannot cope without them, and yet they are beyond his reach. Health care services are primarily directed toward keeping individuals functional as long as possible. To achieve this, the goal for each community must be: "The right service for the right patient, in the right place, at the right time, and at the right cost." Hence, the community must move into action when the services and facilities for its citizens are inadequate or unavailable.

The way to get started is—to START. Four initial steps will be useful:

1. Assess your needs and resources.
2. Seek the support of, and involve local professional persons, particularly the physicians in your planning.
3. Develop a tentative plan for action which is the right size for your community—one which provides short and long-term goals and priorities.
4. Put plan into action, involving local citizens.

I urge you, as a community, to move into action, so that all of your citizens will have within their reach, facilities to enable them to recapture, retain or improve degrees of usefulness—to themselves, to their family and to their community.

I extend my gratitude to the Citizens of Carroll for their co-operation during the past year.

Respectfully submitted,

ELEANOR D. KENNEY, R.N.
Public Health Nurse, District #2
N. H. State Department of Health
